CARE
NETWORK**

**"WE WANT TO
IMPROVE LOCAL
PRIMARY CARE
AND THE
SERVICES IT
PROVIDES"**

Dr Alison Jackson
Clinical Director
Broxbourne Alliance
Primary Care Network

**PATIENT
PARTICIPATION
GROUP**

As a health care team, it is our goal to continuously improve the quality of our services and the outcomes for our patients.

**PATIENT
VOICE**

We would love to hear your voice and opinions about the things that matter in your local Primary Care Network. We would like your feedback on our existing services and for you to identify any healthcare needs that are not currently being met in your local community.

CALLING ALL PATIENTS

Would you like to join the PPG (Patient Participation Group) and represent the patients inside the practices of the PCN (Primary Care Network)? Could you help with designing new services and be a pro-active voice for the GP surgeries? If so, please get in touch at enhertscg.info.broxbournealliance@nhs.net

OUR VISION

Is to continue to improve the quality of care that we provide in alignment with the need of our patient population. Our surgery teams are working closely with each other, enjoying the ability to share expertise and resources, to develop new services.

The four GP Surgeries who make up the Primary Care Network (PCN) are:

Abbey Road Surgery, Cuffley & Goffs Oak Medical Practice, The Maples Health Centre & Warden Lodge Medical Practice. The four GP practices have teamed up together with other local services such as community, mental health, social care and the voluntary sector to look after local populations. PCNs help to join up services at a local level, focusing on the specific needs of these local populations, with patients still accessing routine GP appointments as they do now.

**Armed Forces veteran
friendly accredited
GP practice**

We are proud to be an Armed Forces veteran friendly accredited GP. We encourage our patients to self-identify their veteran status either online or through their practice. This is to enable access to the specialised (and in some cases) prioritised support services available to veterans and their military family.

Our aim is to provide a personalised care approach for those veterans who have a long-term physical, mental or neurological health condition or disability.

MENOPAUSE PATHWAY

Broxbourne Alliance PCN are passionate about the struggles that many women face as they approach the menopause including the change in their physical and mental wellbeing. This is why we are in the process of forming a committed team of professionals who can diagnose and treat with appropriate HRT, as well as offer support holistically from our Health & Wellbeing Team.

Once the service is available, referrals will be made to the Menopause Support Team through your GP Practice.

- Are you forgetful?
- Are you worried about your memory?
- Are you caring for a loved one who is?
